1 May 1970

MEMORANDUM FOR: Chief, Cartography Division

SUBJECT : Indochina Map Folio

25X1A6b

25X1A6b

1. After fulfilling a recent request [REDACTED] for eight copies of the Indochina Map Folio, it was brought to my attention that the stock level is depleted on the small-size version.

2. If we could muster enough copies of individual sheets and assemble about 50 copies of the small-size folio, it might be worth the effort in view of the present situation in Southeast Asia.

3. I would appreciate your comments on the subject of rerunning, or possible revising, at least two of the sheets that are completely out of stock (i. e., 51922 - Airfields; and 51930 - Industry, Mining, and Electric Power), and any problems associated with the assembling of approximately 50 copies of the folio for future distribution.

JAMES A. BRAMMELL
